- ## PERSONAL STATEMENT

I am a Software Developer /Application Support Analyst with more than 2 years' experience working on a large enterprise system. I am skilled in Java, PL/SQL and Ruby, and have experience in developing, implementing and supporting key applications. I have a strong interest in Agile and the Dev-Ops approach to development, testing and deployment automation. I have an excellent work ethic, am diligent, reliable, and take ownership of my work. I am able to acquire new skills quickly, and can adapt to new environments whilst building and maintaining excellent working relationships.
